research - The system design problem:
Operations research has traditionally
been concerned with finding effective
solutions to specific operational
problems. It has developed better
methods, techniques, and tools for doing
so. But operations researchers have
found that too many of their solutions
are not implemented and, of those that

Reeb and S. Leavengood EM 8720-E
October 1998 \$3.00 A key problem
faced by managers is how to allocate
scarce resources among activities or
projects. Linear programming, or LP, is a
method of allocating resources in an
optimal way. It is one of the most widely
used operations research (OR) tools.
